DURANGO · COLORADO

Ride Durango

The singletrack around town, and where to start.

1 **Horse Gulch.** A big web of flowing trails minutes from Main. The first ride for almost everyone.

2 **Raider Ridge.** The rocky ridgeline above the college, with town below you.

3 **Animas Mountain.** A steady climb on the north edge of town to views down the valley.

4 **Overend & Perins.** Short, punchy trails on the west side of town.

5 **Twin Buttes.** Newer, purpose-built trails west of town off US 160.

6 **Colorado Trail.** From Junction Creek, the start of the trail to Denver. Forest singletrack.

7 **Log Chutes.** Cool forest loops up Junction Creek Road. Best on a hot afternoon.

8 **Carbon Junction.** The south door into Horse Gulch, from the bottom of town.

Trail data © OpenStreetMap contributors; elevation from USGS via Mapzen Terrain Tiles. For planning, not navigation: check Trailforks or MTB Project and current conditions before you ride, and stay off muddy trails.

Bikes sized and delivered to the house.
